The Galactic Concord Core has three star systems each containing colonized planets. These planets were all terra_formed to create a central exchange/trade area in the Carina-Sagittarius arm of the galaxy. All races have free access to these systems and planets. The Fraals, strong defenders of inter racial relations, use their heavily armed colony ships to police the Galactic Concord Core.

PLANET NAME

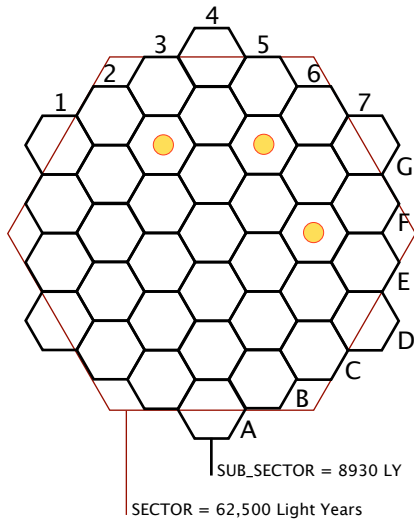

- Distance : Distance in AU from the star of the system
- Type : Terra_Formed, Gas Giant, etc • Planets with no type have no settlements
- Population : According to last census
- Size : Relative to Earth
- Government : Name of the race controlling the political body in place. Political systems vary widely : Dictatorship, Democratic, Corporate, etc
